

Time Matters® 10 System Requirements

| | Workstation* | SQL Server** |
|--------------------------|---|---|
| Processor Minimum | 1 GHz | 2 GHz |
| Processor Typical | 2 GHz | Server running at least 2 GHz |
| RAM Minimum | 512 MB | 1.5 – 3 GB depending on firm size |
| Ram Typical | 1 GB | Double the minimum |
| Hard Disk Minimum | 750 MB on operating system partition during installation. 250 MB on destination partition. | 7200 RPM drive with at least 2 GB of available disk space during installation, 4 GB recommended for database growth |
| Hard Disk Typical | At least 1 GB on both operating system partition and destination partition. | Dependent on firm data |
| Operating System | <p>Microsoft® Windows XP, Windows 2003 Server, Windows Server 2008, and Windows Vista®.</p> <p>While Windows® XP Home and Windows Vista Home Premium are supported, we strongly recommend running a business edition. Because of limitations placed on home editions by Microsoft, home editions will not be supported as a server platform or as a client in an office using a domain controller.</p> <p>Time Matters is not compatible with Mac® Operating Systems.</p> | |
| SQL Server | <p>Version: Microsoft® SQL Server™ 2005 or 2008. Edition: Express, Enterprise, Standard and Workgroup</p> <p><i>- Microsoft® SQL Server™ Express is installed with Time Matters</i> <i>- When running in a multi-user environment, it is recommended that the SQL Server be dedicated, and not a shared workstation.</i></p> | |
| Screen Resolution | 1024x768 pixels at 32-bit color resolution | |
| Network | <p>1000 Base-T Ethernet (Recommended), 100 Base-T Ethernet (Minimum)</p> <p>32-bit Windows or Novell® Netware® 5.1 and later based network.</p> <p><i>- Peer-to-peer networks are not supported</i> <i>- Wireless networks are not supported</i></p> | |
| Notes | <p>*If running Windows Vista for a professional workstation, use the Windows Vista minimum requirements in place of the ones listed here.</p> <p>Due to restrictions on the number of concurrent inbound connections allowed in various versions of Windows, the maximum number of concurrent users supported</p> | |

when running Windows XP Workstation as your server is 10. The maximum number of concurrent users when running Windows Vista home Premium is 5 and Windows Vista Business is 10.

These are recommendations for a typical environment. Needs will vary depending on the number of concurrent users and the number of Enterprise level applications also installed on the server.

Time Matters® 10 Program Link Requirements

| Mobile Devices | Requirements |
|------------------------------|--|
| BlackBerry® Desktop | BlackBerry Desktop Manager 4.0, 4.2, 4.3, 4.4, 4.5, and 4.6. |
| BlackBerry Enterprise Server | BlackBerry Enterprise Server 4.0 |
| BlackBerry Handheld | The BlackBerry link requires Java-Enabled BlackBerry Wireless Handhelds with OS 4.0 and 4.1, 4.2, and 4.3. |
| Palm® | Any device using the Palm® OS® v4 or 5 and the HotSync® Manager version 4.0 or 6.0; no additional software is required—for example, IntelliSync. |
| Microsoft® Pocket Outlook | Windows Mobile® 4,5 and 6 Pocket PCs, Pocket PC phones and Windows® Smartphone devices and Microsoft® ActiveSync®. |

| Time/Billing/Accounting Applications | Requirements |
|---|---|
| Billing Matters® | Requires same version Billing Matters as of Time Matters® (i.e., both must be v8 or v9). |
| PCLaw™ | PCLaw version 8, 9 or 10. |
| Juris® by LexisNexis® | Juris® version 2.1, 2.2, and 2.3 Juris must be installed on each workstation where you want to link with Time Matters®. |
| Intuit® QuickBooks® | The real-time link requires QuickBooks 2006 – 2009 of Pro, Premier or Enterprise, or QuickBooks 2009 Pro and Premier. QuickBooks Server (an optional part of the application and offered at no additional charge) may be used for workstations without QuickBooks installed or by organizations requiring more than five users accessing the QuickBooks Company File. |
| Tabs3™ | Tabs3 version 12 and 14, (Windows ASCII Converter from STI required.) |
| Timeslips® | Timeslips 2005 – 2010. Timeslips must be installed and fully operational on each workstation where you want to link with Time Matters®. |

| Desktop Application Extensions | Requirements |
|---------------------------------------|---|
| Microsoft Office | Microsoft® Word 2003 and 2007; Microsoft® Excel® 2003 and 2007; Microsoft® PowerPoint® 2003 and 2007; Microsoft® Outlook 2003 and 2007. |
| Corel | Corel® WordPerfect® X3 and X4. |
| Internet Browsers | Microsoft® Internet Explorer 6.0 and 7.0.; Mozilla® Firefox® 3.0. |

| | |
|-------|---|
| Adobe | Adobe Acrobat 7.0 and 8.0; Adobe Acrobat Reader 7.0, 8.0, and 9.0 |
|-------|---|

| Applications Synchronizations | Requirements |
|--------------------------------------|---|
| Microsoft Exchange | Microsoft Exchange 2003 or 2007 for Events, ToDo and Contact Records. |
| Novell® GroupWise® | Novell GroupWise 6.5 SP2 for Events, ToDo and Contact Records. |
| MAPI | Time Matters Technical Support fully supports MAPI integration with Microsoft Outlook and although the MAPI integration may work with other applications Technical Support does not provide support for these applications. |
| POP (Internet) | Valid e-mail account and POP3 server name. |
| | |
| Litigation Support | Requirements |
| CaseMap® | Basic send to CaseMap: CaseMap version 6.0 thru 7.5. |
| CaseMap® | Bulk Send to CaseMap: CaseMap version 7.5. |
| LexisNexis® Research | A valid LexisNexis account; in addition, set up Shepard's Link™ and activate in User Level Setup. |
| LexisNexis® CourtLink® | A valid Courtlink® account. |
| | |
| Document Management Systems | Requirements |
| DOCS Open® | DOCS Open 3.9.6 |
| Interwoven® | Interwoven 8.0 and integrates with InfoWrite 5.0, DeskSite 6.0 through DeskSite 8.0, and MailSite 8.0. Interwoven 8.2 and integrates with FileSite |
| NetDocuments® | A valid NetDocuments account |
| WORLDOX® | WORLDOX 8 (2000 Edition), 2002 and GX. WORLDOX must be installed and working appropriately on each individual workstation where you want to link to Time Matters. |
| HotDocs® | HotDocs DMS 2006 - 2009 |
| Paperless Office | Requirements |
| Scanning (Direct TWAIN scanning) | Direct TWAIN scanning is supported and requires a TWAIN-compatible driver only; no additional software is required. |
| PaperPort® | PaperPort Professional 10 and 11. |
| Other | Requirements |
| TAPI Dialer system | TAPI Dialer v2.1 (Outbound Call Processing); Access to modem by your Windows Dial. |
| Windows DDE | Windows DDE (Incoming Call Processing) |
